Los Angeles, California 90025

Re: General Notice Letter for San Fernando Valley Area 2 Superfund Site – Glendale Chromium Operable Unit.  
1 W. Alameda Ave., Burbank, CA.

Dear Mr. Kay:

Under the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"),<sup>1</sup> commonly known as the federal "Superfund" law, the U.S. Environmental Protection Agency ("EPA") is responsible for responding to the release or threat of release of hazardous substances, pollutants or contaminants into the environment. EPA has documented that such a release has occurred at the San Fernando Valley Area 2 Superfund Site ("Site"), Glendale Chromium Operable Unit ("Chromium OU"), which is located in Los Angeles County, California. EPA has spent public funds to investigate and control releases of hazardous substances or potential releases of hazardous substances at the Chromium OU. This General Notice Letter is to notify you that EPA has determined that you and/or your company may be responsible under CERCLA for cleanup of the Chromium OU or costs EPA has incurred or will incur in the investigation and cleanup of the Chromium OU.

**Explanation of Potential Liability**

Under CERCLA, potentially responsible parties ("PRPs") may be required to perform investigation and cleanup actions at a site that has been impacted by hazardous substances and/or be responsible for costs incurred by EPA to investigate or clean up such a site. PRPs include current owners or operators of property that is the source of contamination, former owners or

---

<sup>1</sup> 42 U.S.C. §§ 9601 *et seq.*

operators of such property at the time of disposal of hazardous substances, persons who arranged for treatment and/or disposal of any hazardous substances found at the site, and persons who accepted hazardous substances for transport and selected the site to which the hazardous substances were delivered.

Based on the information collected by EPA to date, EPA believes that Gleason Industrial Products, Inc. may be liable under CERCLA with respect to the Chromium OU, as the current or previous owner and/or operator of a facility located at 1 W. Alameda Ave., Burbank, CA, within the Chromium OU.

### **Description of Chromium OU**

The Chromium OU is part of the San Fernando Valley Area 2 (Crystal Springs) Superfund Site, which was added to the National Priorities List ("NPL") in 1986. The Chromium OU is within the general geographic area occupied by the North and South Glendale Operable Units (collectively, "GOU") of Area 2. The GOU is principally concerned with contamination by volatile organic compounds ("VOCs"), primarily trichloroethylene ("TCE") and tetrachloroethylene ("PCE"), to soils and groundwater.

EPA has taken several response actions at the GOU under CERCLA. In 1993, EPA issued Interim Records of Decision ("RODs") for the GOU, in which EPA selected interim remedies for the VOC contamination at the GOU. The interim remedies require the extraction and treatment of groundwater and delivery of the treated groundwater to the City of Glendale's potable water supply. Since 2000, a group of parties known as the Glendale Respondents Group ("GRG") has conducted the operation and maintenance of the GOU interim remedies under a consent decree with EPA. EPA recognizes that you and/or your company may be members of the GRG and parties to the consent decree for the GOU.

Recently, chromium contamination has been detected in increasing concentrations in area groundwater and has impacted the operation of the interim remedies. The chromium contamination that is affecting the interim remedies is being addressed in that context by the GRG.

EPA has established the Chromium OU to encompass the investigation, evaluation, selection and implementation of a remedy specifically to address chromium in the GOU area groundwater. EPA has incurred and will incur costs to investigate, evaluate, select, and implement remedial actions for the Chromium OU. This General Notice Letter provides you with advance notice that EPA may seek to recover its costs from you and/or your company for such response actions, and/or may ask you and/or your company to perform work at the Chromium OU. Such costs will be in addition to any costs that you and/or your company have incurred or may incur as members of the GRG in connection with the GOU interim remedies and the consent decree.

### **Financial Concerns/Ability to Pay Settlements**

EPA is aware that the financial ability of some PRPs to contribute toward the payment of response costs at a site may be substantially limited. If you believe, and can document, that you fall within that category, please contact Yenhung Ho of EPA at 75 Hawthorne Street, San Francisco, CA, 94105, (415) 972-3262, [Ho.Yenhung@epa.gov](mailto:Ho.Yenhung@epa.gov), for information on "Ability to Pay Settlements." If you make an inability or a limited ability to pay claim, you will receive a letter requesting financial information to document your claim, which may include but not be limited to tax returns, financial statements, and other information that will assist EPA to conduct an analysis. If EPA concludes that you or your company have a legitimate inability to pay the full amount of EPA's costs, EPA may offer a schedule for payment over time or a reduction in the total amount demanded from you.

**Also, please note that, because EPA has a potential claim against you, you must include EPA as a creditor if you file for bankruptcy or you and/or your company are placed in receivership.**

### **Information to Assist You**

EPA would like to encourage communication between you, other PRPs, and EPA at the Site. EPA typically recommends that all PRPs meet to select a "steering committee" that will be responsible for representing the group's interests. Establishing a manageable group is critical to successful negotiations with EPA. If this is not possible, EPA encourages each PRP to select one person from its company or organization to represent its interests to EPA.

To assist you in these efforts, EPA is enclosing a list of all persons to whom a General Notice letter regarding the Chromium OU has been sent. Please note, however, that EPA is at an early stage in its investigation and expects to issue additional General Notice letters as its investigation progresses. EPA can send you an updated list of General Notice letter recipients in the future to inform you of the identities of parties that EPA has identified as potentially responsible for the Chromium OU.

EPA will establish an Administrative Record that contains documents that serve as the basis for EPA's selection of cleanup actions for the Chromium OU. The Administrative Record for the 1993 RODs is located at the Glendale Public Library, 222 East Harvard Street, Glendale, California, 91205, (818) 548-2030, and is available to you and the public for inspection. That Administrative Record is also available for inspection at the Superfund Records Center, EPA Region 9, 95 Hawthorne Street, 4<sup>th</sup> floor, San Francisco, CA, 94105. As EPA moves forward with selection of response actions for the Chromium OU, EPA will supplement the Administrative Record or create a separate Administrative Record for the Chromium OU. EPA also may issue advance notice of the proposed action(s) for public comment.

### **Resources and Information for Small Businesses**

As you may be aware, on January 11, 2002, President Bush signed into law the Superfund Small Business Liability Relief and Brownfields Revitalization Act. This Act contains several exemptions and defenses to CERCLA liability, which we suggest that all parties evaluate. You may obtain a copy of the law via the Internet at <http://www.epa.gov/brownfields/laws/index.htm> and review EPA guidance regarding these exemptions at <http://cfpub.epa.gov/compliance/resources/policies/cleanup/superfund>.

In addition, if you are a “service station dealer” who accepts used oil for recycling, you may qualify for an exemption from liability under Section 114(c) of CERCLA. EPA guidance regarding this exemption can be found on the Internet at <http://www.epa.gov/compliance/cleanup/superfund/defenses.html>. If you believe you may qualify for the exemption, please contact Thomas Butler, Assistant Regional Counsel, at 75 Hawthorne Street (ORC-3), San Francisco, CA, 94105, (415) 972-3869, [Butler.Thomas@epa.gov](mailto:Butler.Thomas@epa.gov), to request an application/information request specifically designed for service station dealers.

EPA has created a number of helpful resources for small businesses. EPA has established the National Compliance Assistance Clearinghouse as well as Compliance Assistance Centers that offer various forms of resources to small businesses. You may inquire about these resources at <http://www.epa.gov>. In addition, the EPA Small Business Ombudsman may be contacted at <http://www.epa.gov/sbo>. Finally, EPA has developed a fact sheet about the Small Business Regulatory Enforcement Fairness Act (“SBREFA”), which is enclosed with this letter.

### **Request for Contact Information**

Please provide EPA with the name, address, e-mail address and telephone number of the person to whom EPA should direct future correspondence with you and/or your company. A contact form is provided for your convenience in providing this information to EPA.

Please give these matters your immediate attention and consider consulting with an attorney. If you have any questions regarding this letter or the site, please contact Lisa Hanusiak at (415) 972-3152, [Hanusiak.Lisa@epa.gov](mailto:Hanusiak.Lisa@epa.gov) regarding the Chromium OU or the work, or Thomas Butler in our Office of Regional Counsel, at the mailing address, telephone number and e-mail address given above, with regard to any legal matters. Thank you for your prompt attention to this matter.

Sincerely,

John Lyons  
Acting Assistant Director  
Superfund Division  
Site Cleanup Branch

## U.S. EPA Small Business Resources Information Sheet

The United States Environmental Protection Agency provides an array of resources, including workshops, training sessions, hotlines, websites and guides, to help small businesses understand and comply with federal and state environmental laws. In addition to helping small businesses understand their environmental obligations and improve compliance, these resources will also help such businesses find cost-effective ways to comply through pollution prevention techniques and innovative technologies.

### **State and Tribal Web-Based Resources**

#### **State Resource Locators**

[www.envcap.org/statetools](http://www.envcap.org/statetools)

The Locators provide state-specific contacts, regulations and resources covering the major environmental laws.

#### **State Small Business Environmental Assistance Programs (SBEAPs)**

[www.smallbiz-enviroweb.org](http://www.smallbiz-enviroweb.org)

State SBEAPs help small businesses and assistance providers understand environmental requirements and sustainable business practices through workshops, trainings and site visits. The website is a central point for sharing resources between EPA and states.

#### **EPA's Tribal Compliance Assistance Center**

[www.epa.gov/tribalcompliance/index.html](http://www.epa.gov/tribalcompliance/index.html)

The Center provides material to Tribes on environmental stewardship and regulations that might apply to tribal government operations.

#### **EPA's Tribal Portal**

[www.epa.gov/tribalportal/](http://www.epa.gov/tribalportal/)

The Portal helps users locate tribal-related information within EPA and other federal agencies.

#### **EPA Compliance Incentives**

EPA provides incentives for environmental compliance. By participating in compliance assistance programs or voluntarily disclosing and promptly correcting violations before an enforcement action has been initiated, businesses may be eligible for penalty waivers or reductions. EPA has two such policies that may apply to small businesses:

#### **EPA's Small Business Compliance Policy**

[www.epa.gov/compliance/incentives/smallbusiness/index.html](http://www.epa.gov/compliance/incentives/smallbusiness/index.html)

This Policy offers small businesses special incentives to come into compliance voluntarily.

#### **EPA's Audit Policy**

[www.epa.gov/compliance/incentives/auditing/auditpolicy.html](http://www.epa.gov/compliance/incentives/auditing/auditpolicy.html)

The Policy provides incentives to all businesses that voluntarily discover, promptly disclose and expeditiously correct their noncompliance.

### **Commenting on Federal Enforcement Actions and Compliance Activities**

The Small Business Regulatory Enforcement Fairness Act (SBREFA) established a SBREFA Ombudsman and 10 Regional Fairness Boards to receive comments from small businesses about federal agency enforcement actions. If you believe that you fall within the Small Business Administration's definition of a small business (based on your North American Industry Classification System designation, number of employees or annual receipts, as defined at 13 C.F.R. 121.201; in most cases, this means a business with 500 or fewer employees), and wish to comment on federal enforcement and compliance activities, call the SBREFA Ombudsman's toll-free number at 1-888-REG-FAIR (1-888-734-3247), or go to their website at [www.sba.gov/ombudsman](http://www.sba.gov/ombudsman).

Every small business that is the subject of an enforcement or compliance action is entitled to comment on the Agency's actions without fear of retaliation. EPA employees are prohibited from using enforcement or any other means of retaliation against any member of the regulated community in response to comments made under SBREFA.

### **Your Duty to Comply**

If you receive compliance assistance or submit a comment to the SBREFA Ombudsman or Regional Fairness Boards, you still have the duty to comply with the law, including providing timely responses to EPA information requests, administrative or civil complaints, other enforcement actions or communications. The assistance information and comment processes do not give you any new rights or defenses in any enforcement action. These processes also do not affect EPA's obligation to protect public health or the environment under any of the environmental statutes it enforces, including the right to take emergency remedial or emergency response actions when appropriate. Those decisions will be based on the facts in each situation. The SBREFA Ombudsman and Fairness Boards do not participate in resolving EPA's enforcement actions. Also, remember that to preserve your rights, you need to comply with all rules governing the enforcement process.

*EPA is disseminating this information to you without making a determination that your business or organization is a small business as defined by Section 222 of the Small Business Regulatory Enforcement Fairness Act or related provisions.*
